Education

Birzeit University

Experience

FrontEnd Developer

the development and maintenance of multiple **cartography**-focused web applications.
Implemented map **creation, styling**, and editing features using **Leaflet, MapLibre, HTML, CSS**, and **React.js**.
Actively participated in **code reviews** to ensure high-quality and efficient development practices.
contributed to various **research and development** initiatives aimed at optimizing our web applications' performance. Through my involvement, I played a key role in implementing strategies that effectively decreased the load on the client side, resulting in **enhanced** user experiences and improved **efficiency** across our platforms.

FullStack Developer P, R J 2023 - F 2024

Designed and developed over 10 websites using Laravel and **Livewire**, alongside **Alpine.js, HTML, and CSS**.
Actively engaged in diverse **R&D** activities, exploring cutting-edge technologies such as **face recognition, Hugging Face** for machine learning, **microservices**, and more, regularly reporting findings to contribute valuable insights for strategic decision-making processes.
Conducted thorough **testing** on all company applications, identifying bugs and either reporting or fixing them.

FullStack - Developer (Internship) M, USA - Remote
Full Stack React MongoDB Express Node.js
Redis data logging cookies
Heroku
Quality Assurance
Agile Scrum

Projects

Graduation Project ([GitHub](#))
full-stack Django FastApi
Librosa
MySQL Object-Relational Mapping (ORM)

Technical Skills

Programming languages: Python PHP JavaScript, Java C C++
Frameworks: Django Laravel Mysql Postgresql Spring Boot Mern
Cloud: AWS Azure Docker
Others: Github Multi-Threading Trello Slack Discord Microsoft Office, Linux shell scripting
