## Education

Birzeit University

## Experience

### FullStack Developer

the development and maintenance of multiple **cartography (GeoJson)**-focused web applications. Implemented map **creation, styling**, and editing features using **SpringBoot, MapLibre, HTML, CSS**, and **React.js**. Actively participated in **code reviews** to ensure high-quality and efficient development practices. contributed to various **research and development** initiatives aimed at optimizing our web applications' performance. Through my involvement, I played a key role in implementing strategies that effectively decreased the load on the client side, resulting in **enhanced** user experiences and improved **efficiency** across our platforms.

FullStack Developer P, R J 2023 - F 2024

Designed and developed over 10 websites using Laravel and **Livewire**, alongside **Alpine.js, HTML, and CSS**. Actively engaged in diverse **R&D** activities, exploring cutting-edge technologies such as **face recognition, Hugging Face** for machine learning, **microservices**, and more, regularly reporting findings to contribute valuable insights for strategic decision-making processes. Conducted thorough **testing** on all company applications, identifying bugs and either reporting or fixing them.

FullStack - Developer (Internship) M, USA - Remote

Full Stack React MongoDB Express Node.js  
Redis data logging cookies  
Heroku  
Quality Assurance Selenium Junit
